

Group Contract

NAMES

Please submit this contract with your Topic Selection Sheet by September 18.

We will complete a group entry in National History Day for 2012-2013. We realize that we will need to work closely together in the research, development, and creation of our entry. We also realize that we will collectively complete all aspects of the project, including the annotated bibliography and process paper, as a group. We realize that we will need to develop and maintain a system of organization for all of our research material. Finally, we realize that we will receive a group grade on this project, and allowances will not be made if one member does not fully participate.

We also have reviewed the basic overview of the project with my parent(s).
